

- B. Second floor plan general notes
  - 1) Stud dimensioning
  - 2) Sheathing dimensioning
  - 3) Examples of wood partitions
  
- III. Transverse section
  - A. Trusses
    - 1) Design
    - 2) Materials
    - 3) Spacing
    - 4) Stress and load
  
  - B. Cross section of elevations
    - 1) Direction of ceiling and floor members
    - 2) Placement of girders, headers and columns
    - 3) Notes
    - 4) Dimensions
    - 5) Roof pitch
  
  - C. Stairs
    - 1) Review of terminology
    - 2) Rises and tread proportions
    - 3) Stair formulae
    - 4) Angle of stairs
    - 5) Plan layout
    - 6) Headroom
    - 7) Railings
    - 8) Notes and dimensions
  
  - D. Ground and foundations cross-section
    - 1) Wall section review
    - 2) Brick-veneer construction
    - 3) Sill details
    - 4) Footing
    - 5) Dimensions and notes
  
  - E. Insulation symbols
    - 1) Insulation for floor slabs
    - 2) Steel reinforcement
    - 3) Vapor barriers
    - 4) Ventilation
    - 5) Notes and dimensions
  
  - F. Interior load bearing walls
    - 1) Concrete block

- 2) Steel and concrete joists
  - 3) Reinforces concrete joists
  - 4) Notes and dimensions
- IV. Sections and details
- A. Typical and wall section
  - B. Side wall section
- V. Mechanical-electrical schedule
- A. Isometric hot and cold water piping
    - 1) Use of templates
    - 2) Isometric layout
    - 3) Symbols, notes and dimensions
- VI. Site plan
- A. Layout of features
    - 1) Lot size
    - 2) Lot shape
    - 3) Elevation
    - 4) Contours
    - 5) Roads
    - 6) Set back requirement
  - B. Dimensions and legend
    - 1) Property lines
    - 2) Electrical transformer
    - 3) Contour dimensions
    - 4) General notes
